ANTIOXIDANT

Ionized Hydrogen-rich Water makes the Oxidation Reduction Potential (ORP) of water negative making water Antioxidant.

ENERGIZE

Ionized Water helps with better metabolism leading to better energy.

DETOX

Ionization makes water molecules size smaller, making it easy to penetrate in body flushing out wastes & toxins.

HYDRATE

Smaller Molecular size of Water helps better Hydration in our body

EFFECTIVE DIET

Hydrogen Rich Water helps with Faster metabolism leading to better health.

EFFECTIVE IN SKIN CARE

Molecular Hydrogen Water helps with better skin cleaning and care, especially for face.

CONTROLS SUGAR LEVEL

Live Molecular Hydrogen Rich water helps control sugar level in our body, which leads to preventing of various diseases like Diabetes, Cholesterol, Heart Diseases, etc.

Alkelixir

Health, Wealth, Joy...

Improved Skin Health

Molecular Hydrogen Rich water has Anti-aging Properties

Improved Athletic Performance

Drinking Hydrogen Rich water boosts performance

Reduced Inflammation

Drinking Hydrogen Rich water have anti-inflammatory properties

Enhanced Recovery

Hydrogen Rich Water decrease muscle fatigue and improve energy levels

Enhanced Muscle Growth

Hydrogen Rich water improves Blood Flow leading to better nutrients and oxygen delivery to Muscles

Magic Water for Growing Age....

Portable Hydrogen Rich Water Generation Tumbler

The tumbler will infuse dissolved free molecules of Hydrogen. Dissolved Hydrogen has benefits like being absorbed by the body quickly, making water antioxidant, reducing inflammation, reducing risk of metabolic syndrome, providing neuroprotection for various diseases, reducing side effects associated with cancer radiation treatment and more than 150 more benefits.

What is Hydrogen Water?

- Chemically represented with symbol H having atomic number 1.
- 75% of entire universe made up of hydrogen.
- Smallest & Simplest element in universe & Having capabilities to act at cellular levels in our body.
- Hydrogen is natural Antioxidant.
- Hydrogen is qualified to cross blood brain barrier.
- Studies shows that hydrogen exerts an Antioxidant. Anti-apototic, Auto-Inflam & Cytoprotective Properties that are beneficial to cell

POWERED BY ADVANCED **SPE PEM** TECHNOLOGY

Inspired by the Nature for Purest form of Water

Proton exchange membrane Filters Hydrogen and Removes Cl_2 , O_3 & H_2O_2 when generated during Electrolysis Process.

TECHNICAL SPECIFICATIONS

Input Water	Purified Water
Voltage	220V
Battery Capacity	3000 mAh
Cup Capacity	500 ml
Antioxidant (ORP)	up to - 750 mv
Dissolved Hydrogen	up to - 1500 ppb
Fully Charged Battery	60 cycles in one full charge (3 min cycle)
Hydrogen Produce Cycle	3 and 10 min

Exhaust Vent

Oxygen, chlorine and ozone are separated out, discharged from the bottom waste gas vent device.

Powerpress Button

1 Key Controls 3 Working modes

Press 1 time, 3 minutes mode

Press 2 times quickly, 10 minutes mode

Press and hold for 3 seconds, self clean mode.

500+ Electrolysis Holes

Reason of High Hydrogen Concentration

Korea Ti+PT Electrode

Withstand Multiple High Pressure electrolysis, no deformation, no water leakage

Universal Transfer Adapter

It comes with mineral water transfer adapter, suitable for 99% PET bottles in market.

Blue LED RGB Light

Hydrate in style with Inbuilt Blue RGB Premium Light for an Exquisite look and feel

Works for many Water Type Quality

Mineral water, Purified water, Distilled water, R.O. water, Warm Boiled Water (below 60°C)

WORKING MODES

3 min

- Press the Button 1 time
- Blue Light
- 800-1000 ppb

3 minutes mode :

Do not run the device more than 2 times in a row.

10 min

- Press the Button 2 times
- Blue Light
- 1500-2000 ppb

10 minutes mode :

Do not run the device more than 1 times in a row.

SELF - CLEANING

Self-cleaning Mode (also called ozone mode), this helps to remove the water scale and prolong device life. Cleaning water can be used for disinfection.

(water from this mode can not be drunk)

Self-cleaning mode should be used at least once a week to enhance the performance. Please discard the Water after self-cleaning mode and fill fresh water for consumption

Long Press the Power Button for 3 Seconds until green light turns ON, cleaning mode starts

Cleaning mode :

Long press the power button Below 3 seconds, green light on, device starts cleaning mode this helps to remove water scale on the electrolysis plates and prolong device life

Hydrogen Inhalation

Inhaling Hydrogen is absorbed at the cellular level, thus increasing better blood supply oxygen, brain power, alertness and define common illness which includes cell repair. the Bottle comes with pipes compatible for inhalation

Turn Packaged Drinking Water into Hydrogen Rich Water

Options for making 1 litre packaged drinking water Antioxidant, Hydrogen-Rich Compatible with almost all 1 Litre packaged drinking water bottle in the market
